## S21625 C5 FLEXILITE MKII GLOVES

*Discover the next generation of GRIPPS® hand protection with the C5 FlexiLite MKII, now re-engineered for greater comfort and dexterity to deliver superior performance at heights.*

Like all GRIPPS® gloves, the C5 FlexiLite MKII is more than just a glove; it's a fully integrated drop prevention system. The patented tether anchor point, load-rated to 2.3kg/5 lbs, allows you to tether tools directly to your wrist, maintaining full dexterity and a complete range of motion. By eliminating the need for belt or external attachments, you work free from tangles, tension, and catches, maximising safety and efficiency.

2.3 KG

5 LB

MAX LOAD:

ENGINEERED FOR DROP PREVENTION

[gripps.com](https://gripps.com)

## KEY FEATURES

Double coated sandy foam nitrile for long-lasting grip.

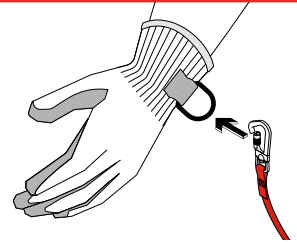

Improved flexibility & overall user comfort.

Super lightweight HPPE knit liner providing maximum cut resistance.

A **load-rated** tether anchor everywhere you go.

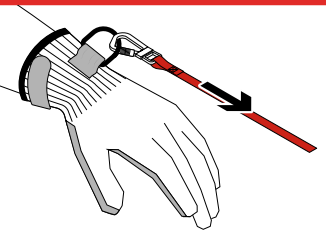

## HOW TO USE

**1**

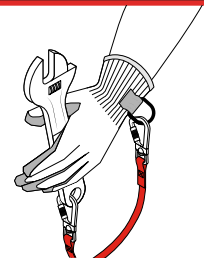

Attach a GRIPPS® Wrist Tether by opening the tether carabiner and attaching it to the load-rated tether anchor.

**2**

Pull firmly on the tether to ensure that the connection is secure.

**3**

You can now work at height with your GRIPPS® gloves.

**\*NEVER EXCEED MAX LOAD 2.3kg/5.0lbs.**

**\*NEVER EXCEED MAX TETHER LENGTH 25cm/9.8in.**
