## H01075 COIL HARD HAT TETHER (NON-CONDUCTIVE)

0.5 KG 1.1 LB

MAX LOAD:

*The GRIPPS® Coil Hard Hat Tether (Non-conductive) is both reliable and compact, offering a low-profile design that ensures you hardly notice it's there.*

Manufactured from industrial-grade PU, the coil boasts exceptional strength and ruggedness, making it ideal for various industrial applications.

Featuring a highly secure metal clamp and a tactical, lightweight design, the GRIPPS® Coil Hard Hat Tether (Non-conductive) is compatible with the majority of hard hats available on the market. It easily connects using a straightforward choke method.

ENGINEERED FOR DROP PREVENTION

## KEY FEATURES

Industrial-grade  
PU coil.

Extremely strong  
poly clamp.

Non-conductive  
design

Lightweight and low  
profile design.

## HOW TO USE

**1**

Feed the looped end of the hard hat tether through an appropriate connection point on the hard hat.

Then feed the clamp end of the hard hat tether through the loop, and pull tightly to create a secure connection.

**2**

Push fabric all the way into the jaws of the clamp, ensuring that the clamp "teeth" are totally covered by fabric.

Close the clamp by pushing the arm all the way down. Apply 2kg/4.5lbs of force to the tether to ensure a secure connection.
