## H01065 COIL E-TETHER WITH POLY CLAMP (NON-CONDUCTIVE)

*The GRIPPS® Coil E-Tether With Poly Clamp (Non-Conductive) is designed without any metal components, making it ideal for securing small electronic devices in environments with live electrical currents.*

This tether securely clamps onto materials with a thickness exceeding 3.0mm/0.1", such as pocket liners or shirt collars.

Featuring a side-release attachment dock equipped with a simple choking mechanism, it enables effortless swapping of electronic devices. This provides a swift and reliable solution for tethering cameras, cell phones, radios, and other small items with suitable existing loops or hang holes.

For devices lacking appropriate loops or hang holes, it can be paired with a GRIPPS® E-Catch to establish a permanent tether anchor point on any surface.

## KEY FEATURES

## HOW TO USE WITH A GRIPPS® E-CATCH

**1**

Peel cover from one side of the adhesive pad and attach to the E-Catch. Peel cover from other side and attach to a non-porous location on the device.

**2**

Secure E-Tether to E-Catch by first feeding loop through the connector point, then feed the E-Tether back through the loop to create a choke.

Press side-release buttons to hot-swap between different electronic devices. Ensure attachment dock 'clicks' back into place.

**3**

If anchoring to clothing, ensure you clip the tether onto thick fabric such as your collar or pocket lining.

## SPECIFICATIONS / VARIATIONS

SKU	MAX LOAD	MIN LENGTH	MAX LENGTH	VARIANT
H01059	0.5KG   1.1LB	18CM   7IN	86CM   34IN	With E-Catch
