H01079 WEBBING TETHER HEAVY-DUTY DUAL-ACTION

Engineered for maximum safety at height, this premium webbing tether delivers exceptional performance with a robust 36.3 kg (80 lb) load rating.

Constructed from premium, abrasion-resistant webbing and fitted with dual-action carabiners at both ends, it provides reliable, secure connections to anchor points, scaffolding, rails, and tool attachment points. The double-action gate mechanism reduces accidental release, while the contrasting tether ends make setup intuitive and fast.

Choose the GRIPPS® Webbing Tether Extra Heavy-Duty Dual-Action for dependable performance, enhanced safety compliance, and confidence when working with heavy tools at height.

36.3 KG **80** LB
MAX LOAD

ENGINEERED FOR DROP PREVENTION

gripps.com

KEY FEATURES

Dual-action carabiners at both ends: Double-locking gates reduce accidental release and provide secure, compliant connection points.

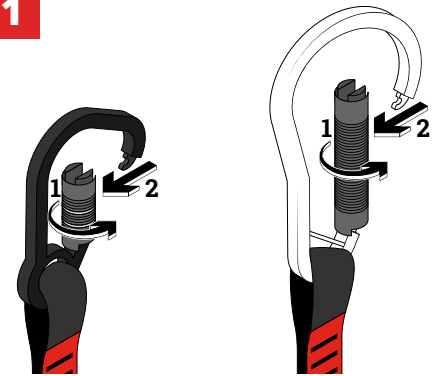

Abrasion-resistant webbing: Durable construction withstands daily wear on industrial work sites.

Massive 36.3kg (80lb) Max Load: Supports heavier tools and equipment to mitigate dropped-object incidents in demanding environments.

Lightweight design.

HOW TO USE

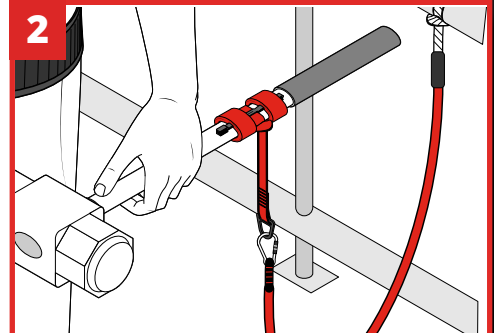

1

Open or close the carabiners as required.

IMPORTANT NOTE - The H01079 - Webbing Tether Heavy-Duty Dual-Action Carabiner has a dedicated Anchor end (the larger carabiner) and a dedicated Tool end (the small carabiner).

2

Connect to handrail or tool connection point.
