Fall arrest lanyard 1506

- Double fall arrest lanyard
- No Hook or carabiner
- 20 mm fle webbing

EN 355 : 2002

Product description

A twin fall arrest lanyard provides secure protection when working on skylifts and scaffolding. Energy Twin-web is manufactured as a tube with internal core. The product is suitable for work where the user moves alternately and needs to reconnect. At the beginning of the webbing there is an external absorber mounted which is released in case of a fall and catches you. Tested and approved for users up to 100 kg. The cover on the absorber can easily be replaced if it becomes dirty or damaged to ensure that the rope underneath is protected in the best way. The bag make it easy to carry out an annual inspection according to EN 365. The lanyard is delivered without hooks.
