Product description

Simo+ H-A is a work positioning lanyard with softly balanced one-hand adjustment grip. Made of 11 mm kernmantle rope coated with polyamide, the rope is very resistant to weather and wind. The rope is therefore advantageously used for products that will withstand sharp edges and tough weather conditions. The difference between Simo+ H-A and Simo+ S is that this model has ANSI certified carabiner and a big ANSI certified hook with 64 mm opening. The support rope is lightweight as all components except the rope are in aluminum.
