COMPLIANT

H01076 WEBBING TETHER HEAVY-DUTY DUAL-ACTION

The GRIPPS® Webbing Tether Extra Heavy-Duty Dual-Action is a strong, lightweight, and reliable tether solution for demanding worksites. Built from industrial-strength polyester webbing with a reinforced eyelet and a dual-action carabiner, it provides safe, consistent performance at height.

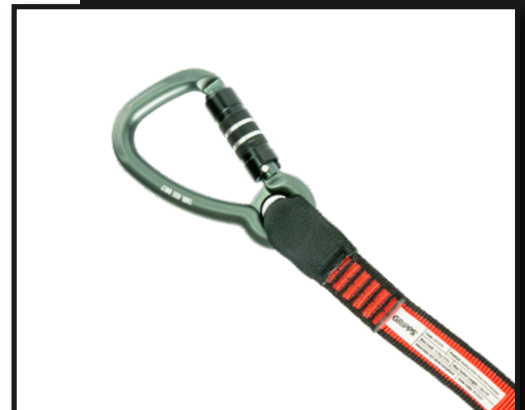

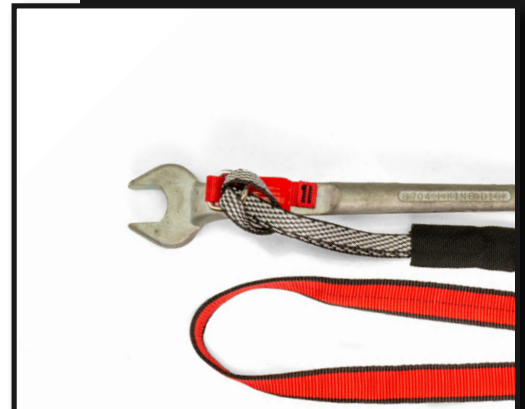

The 1.8 m (71 in) tether length offers greater flexibility when reaching anchor points, while maintaining a full range of motion when operating tools or equipment.

Rated to a maximum load of 15.9 kg (35 lb) and compliant with ANSI/ISEA 121-2023, it's engineered for those who won't compromise on durability or standards.

15.9 KG **35** LB

MAX LOAD

ENGINEERED FOR DROP PREVENTION

gripps.com

KEY FEATURES

Large size dual-action carabiner.

Extra heavy-duty webbing.

Wide tail loop with additional grip-weave.

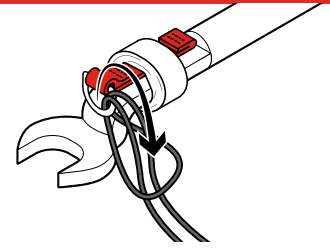

Ideal for securing large tools and equipment at height.

Extended reach allowing for tether anchor-point flexibility.

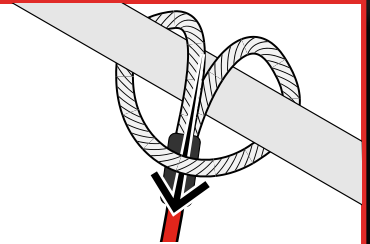

HOW TO USE

1

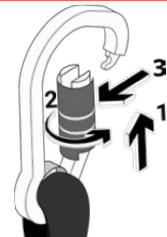

To attach using the loop end, pass the loop through a connection point.

2

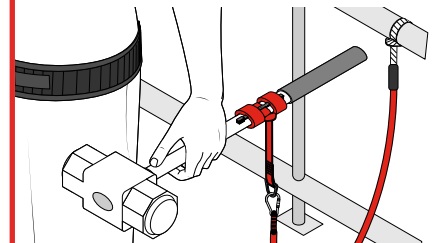

Feed the carabiner end of the tether through the loop and pull tightly to create a secure connection.

3

Open or close the carabiner as required.
